80 – 89	B
70 – 79	C

A grade of an “I” is an incomplete, and will be changed when the course is completed within the time limit set by the teacher.

ATTENDANCE

In accordance with the policy of the board of education, each student in high school and junior high school must attend regularly to gain credit for their classes they are enrolled in during that semester. Student grades will be based solely on project or coursework.

Students cannot have more than 9 absences per semester to receive credit in a class.

Chronic Absenteeism will result in failure to get credit in a class. Chronic absenteeism is defined as 10 absences in any one semester. Any student who accumulates 10 absences in any one semester will be subject to failure. Exception might be made in certain cases with administrative and/or board consideration, on an individual case by case basis. Saturday School will not be used in order to make up excessive absences. Once a student has 10 absences they will receive “no credit” for each class that they have 10 absences or more. The students can appeal the “no credit” ruling with the school board. The school board will listen to the each case individually and determine the resolution for each situation, the decision of the board shall be final. The Garfield County Juvenile Office will be called and will assist with truant students.

ATTENDANCE REGULATIONS

Jr and Sr High

Excused absences will be granted for the following reasons:

1. Personal or family illnesses, death in the family, funeral of a close friend or relative
2. Medical appointments
3. Legal matters
4. Extenuating circumstances deemed necessary by the principal
5. Observance of holidays required by the student’s religious affiliation

It is the responsibility of the parent to notify the school by 10:00 am if a child is to be absent for one of the above reasons. The school will attempt to contact those students’ parents who do not call. If no contact is made, the parent must call the day the child returns before the student can be excused.

The student will make up all work missed without penalty. It is the responsibility of the student, on the day of return, to make arrangements to see that the work is made up.

STUDENT ATTENDANCE

In accordance with the policy of the board of education, the following shall govern student attendance for activities.

1. School Activity: These are extracurricular activities, whether sponsored by the school or an outside agency recognized and approved by the administration, which removes the student from class more than half of a class period.
2. The total number of student activity absences allowed from any one class period without permission from the administration and approved by the local board of education, shall be 10 per year. The following activities are exempt: State and National levels of school-sponsored competitions which have the approval of the board of education, school field trips involving the class period only, serving as a page in the State Legislature, and school assemblies.
3. Once the student has had 10 activity absences from any one class period, the student must be reported to the principal's office for consideration of further absences.
4. The student will be allowed to make up any work missed while participating.

The criterion for continuing beyond the ten-day absence limit shall be as follows:

1. A student must have a letter grade of "C" or better in the subject or subjects that he wants to miss.
2. Before a student is given permission to be absent beyond the 10 day limit, even though he has a "C" or better, his record must show that his grade has not been adversely affected by the previous ten days of absences, and he has turned in all required work missed on previous days out.
3. Students with excessive absences or tardies may not be granted any extra days for activity absences. These will be reviewed by the committee on an individual basis.

The policy of the board of education does not set a maximum number of activity absences to be allowed per student. However, unreasonable requests upon the administration for exemptions will not be considered.

Students who are absent in the morning for any length of time are also to obtain an admit slip before being admitted to any of their classes later during the day. Students are always to check in and out through the elementary office.

MAKE UP WORK

All class work missed during an absence must be made up. Students will be given a reasonable time in which to complete make up work. institution to visit the institution.

PROMOTION OF STUDENTS FAILING CORE AREAS (7TH & 8TH)

1. Students in the 7th & 8th grades who fail to successfully complete each of the four core curriculum classes will not be promoted without an educational review and contract.

3. Students who fail a core curriculum class could be promoted upon fulfillment of all terms of an educational contract and/or successfully completing the same class or classes in summer school.
4. Students and/or parents will be responsible for paying the tuition charges and other fees incurred for summer school sessions.

SELECTION OF VALEDICTORIAN AND SALUTATORIAN

Beginning with the class of 2012 a weighted system will be used to determine the Valedictorian and Salutatorian of Covington-Douglas High School. The selection of the Valedictorian and Salutatorian shall be made on the basis of grades for the 9th, 10th, 11th and first semester of the 12th grade. The school has the right to revoke the status of a Valedictorian or a Salutatorian if the senior's 2nd semester grades make him or her ineligible for the honor. No student shall be considered for this honor unless they have attended the Covington-Douglas School for the three previous semesters. No Student shall be considered unless they have taken the College Bound Curriculum as set forth by the State Department of Education. No student will be eligible for this honor that chooses to graduate early (before their senior year – 12th grade). This is primarily because the selection must be based on a seven semester transcript.

The point system to be used in the selection is as follows:

Regular Classes A=4 B=3 C=2 D=1 and F=0
Honor's Classes A= 5 B = 4 C = 3 D = 2
Honor's courses will consist of all AP courses, all OSSM courses, Trig/PreCalc, Physics, and College Courses taken through an accredited Oklahoma

University. A maximum of the first two credits of honors courses taken will be weighted as honors. All additional honors courses will be weighted as follows: A=4 B=4 C=3 D=2 and F=0.

In the case of ties, duplicate awards will be given. In grade school, the selection will be based on the grades from the 2nd semester of the students 6th grade year through the 1st semester of their 8th grade year. Other regulations shall be the same as used for the high school. However, in elementary if students fail to meet attendance requirements and have no board approved exemption for excessive absences they shall be ineligible to receive the valedictorian or salutatorian award.

GRADUATION PROCEDURES

A student may participate in graduation exercises if the student was on target for graduation at the end of the 1st semester and is no more than 1/2 credit away from the required credits for graduation at the time of graduation and the student is otherwise on track with their normal graduating class. Students must purchase their own graduation announcements, caps, and gowns. Graduation ceremonies are under the direction of the senior class sponsors and the administration. All students will wear royal blue caps and gowns as issued to them. Male students will wear slacks and all students will wear appropriate shoes. Any student failing to adhere to the guidelines set by the class sponsors and the administration will not be allowed to participate in graduation exercises. Any inappropriate behavior before, during or after the graduation ceremony will result in the guilty student(s) not receiving their diploma.

HONOR ROLLS

The Principal's Honor Roll is open to all students who at the end of each grading period have no grades lower than B. The Superintendent's Honor Roll is open to all students who at the end of each grading period have all A's.

CORRESPONDENCE STUDY

CONCURRENT ENROLLMENT

Concurrent enrollment in college level classes while still a high school student is offered to all

juniors and seniors. Concurrent high school students must be eligible to satisfy the requirements for college admission no later than the spring of his/her senior year. College credit is earned for the courses taken and grades reflected on a student's college transcript. High school credit is not earned and not reflected on a student's high school transcript. Check with the school counselor for enrollment requirements.

PROFICIENCY BASED PROMOTION

Proficiency based promotion is offered to all students twice during the school year. Each student has the opportunity to participate in the proficiency based promotion tests in August during the first week of the fall semester and again in May during the end of the spring semester. The student must score a minimum of 90% on the test to receive credit and advance to the next level of study. Proficiency based promotion tests are offered at each level of elementary school, grades 1-8, that include assessments in language arts, mathematics, social studies, science and reading. Assessments at the secondary school level vary. Check with the counselor's office for a current list.

RETAKEING A COURSE

A student may not retake a class or course for credit, or to receive a higher grade for the course, if the student has previously taken the course and received a passing grade for the course. If a student retakes a course the student has previously failed, the student will receive the grade the student makes upon retaking the course. The previous grade, however, will not be removed from the student's transcript.

VOCATIONAL TECHNICAL SCHOOL

Students who are classified as juniors or seniors may enroll in courses at the Autry Technology Center in Enid. Students must enroll in the morning only, unless special permission is granted by the administration.

A bus is provided for morning Vocational Technical School, and the students are to ride this bus to and from Enid with the following exceptions:

1. Students may drive if the Vocational-Technical School requests a student to drive and the principal approves that request.
2. Upon administration approval, students may drive if the parents so request it; as long as the request is in writing.
3. Students will not be given permission to ride

with another student to or from school unless parental request is given and the administration feels in their opinion, it is an important individual situation.

Since the bus driver will take roll, it will be simple to be aware of students who are not in compliance with this bus policy. Those students will not be allowed to enter Vocational-Technical School when this occurs and will be given unexcused absences to Vocational-Technical School the next day the student returns to class.

The Vo-Tech bus will leave at 7:20 a.m. from school. Vo-Tech students will arrive approximately 11:15 a.m. back to Covington-Douglas for 4th hour. Students are expected to be in class at 11:20 a.m.

CRITERION REFERENCED TESTS REMEDICATION

Any student who did not pass any section of the 5th or 8th grade criterion referenced tests is offered remediation during the following school year. Remediation is offered by the 5th – 8th grade teachers in the regular classroom as well as specially scheduled times before and after regular school hours.

8TH GRADE READING REMEDIATION

For any student that does not pass the 8th grade reading criterion referenced test, alternative assessments are offered in order to receive an accurate assessment of the students' reading abilities. Individualized tutoring is recommended and offered for those students who do not consistently receive above an 8.0 grade equivalent on the 8th grade reading criterion reference test and the alternate assessments. Once the student participates in individual tutoring, alternative assessments can be repeated every 60 days.

DRESS CODE

The Covington-Douglas Board of Education believes that the majority of the students in public schools recognizes their own individuality and has no need to express themselves in extreme dress or grooming styles. Generally, dress and grooming standards as determined by the student and their parents will not be questioned. The only requirements the board of education insists on, are that the students' dress and grooming shall not lead school officials to reasonably believe that such dress or grooming will disrupt, interfere with, or detract from school activities, or create a health or other hazard to the student's safety, or to the safety of others.

Generally, students should regard neatness and cleanliness in grooming and clothing as important. Dress or grooming which is any way disruptive to the operation of the school will not be permitted.

Revealing or sexually provocative clothing may not be worn.

The principal, in conjunction with sponsors, coaches or other persons in charge of extracurricular activities, may regulate dress and grooming of students who participate in a particular activity if the principal reasonably believes that the student's dress or grooming creates a hazard, or may prevent, interfere with, or adversely affect the purpose, direction or effort required for the activity to achieve its goals.

If a student's dress or grooming is objectionable under the above provisions, the principal shall request the student to make appropriate corrections. If the student declines the principal shall notify the student's parents or legal guardian and request that person to make the necessary correction. If both the student and parent or legal guardian refuses, the principal shall take

appropriate disciplinary action.

Students who violate provisions of the dress code and who refuse to correct the violation may be disciplined by removal or exclusion from extra curricular activities. In extreme cases, students may be suspended until the violation is corrected.

The following are specifically prohibited:

1. Tank tops except in P.E. classes.
2. Clothing made of see through materials; shirts or blouses that expose the midriff and/or back; or sleeveless garments resembling tank tops with shoulder straps less than 2 inches wide and/or not covering all straps of undergarments, sports bras are considered undergarments.

In all disciplinary actions, the administration should be mindful of the fact that they are dealing with individual personalities. The administration should consider consultation with parents on disciplinary measures that might prove most effective in particular instances.

Nothing dealing with discipline shall be construed to deny the student's right to fair and orderly hearings, appeals, counsel and the due process in cases, which may end in suspension or expulsion.

Due to the importance of correcting undesirable behavior while staying in school, Covington-Douglas Schools will utilize "Saturday School". It is imperative that both students and parents know that this is an intervention method and will not become a frequent occurrence.

-Saturday School will be conducted from 8:00 AM until 10:30 AM.

-Student is responsible for arriving with school related assignments to complete.

-Transportation is the responsibility of the student or parents.

-Students will not be admitted tardy.

-Students will not be allowed gum, candy, snacks, etc. while in attendance.

-Students will not talk with other students.

-Students will not be allowed to sleep, use their telephone or any electronic device.

-Restroom breaks will be kept to a minimum and only with the permission of the monitor.

-Community Service may be used during Saturday School.

FAILURE or REFUSAL TO SERVE ASSIGNED DISCIPLINE

If the student fails to serve the discipline assigned by a teacher or administrator due to circumstances genuinely beyond the student's control, the student must make up the discipline. If the student

"forgets" to serve the discipline or is late, the discipline is doubled. If the student is late, does not show up, or refuses to serve the assigned discipline for a teacher, disciplinary action will be referred to the principal. Upon completing assigned disciplinary action (multiple detentions, Saturday School, ISD, or OSS) by the principal the student must return to the teacher and also serve the original discipline.

SUSPENSION OF STUDENTS

In accordance with the policy of the board of education, the following regulations shall govern the suspension of students from school. The authority to suspend a student from a school in the school district is delegated to the principal.

4. A student who has been adjudicated as a delinquent for a violent offense, or nonviolent offense, and has been removed from a public or private school in this state, or any other state for such act, will not be

Procedural Steps to Suspension-Before a student is suspended from school, the principal of that school shall consider and apply, if appropriate, alternative in-school placement options that are not to be considered suspensions. Such placements can include an alternative school setting, reassignment to another classroom, or before school suspension. If such alternate placement is rejected, written justification must be placed in the student's permanent record.

OUT OF SCHOOL SUSPENSION (OSS)

A student may be suspended from school the remainder of the current semester and the entirety of the succeeding semester. If out of school suspension is prescribed, the building principal must justify in writing why in-school placement was not appropriate. A student suspended out of school will be placed in a supervised, structured environment in either a home-based schoolwork assignment setting or another appropriate setting. If a student is suspended for more than 5 days and is found guilty of acts as described above, the school administration shall provide the student with an education plan designed for the eventual reintegration of the student into school which provides for the core units in which the student is enrolled. The minimum core units shall consist of english, mathematics, science, social studies, and art. The plan shall set out the procedure for education and shall address academic credit for work satisfactorily completed. A copy of the plan will be provided to the student's parent or guardian, and they will be responsible for the provision of supervised, structured environment in which the parent or guardian shall place the

student, and bear responsibility for monitoring their educational progress, until they are readmitted to school.

****Guidelines and policy procedures for appellate procedures, appeal for reinstatement, and suspension appeals committee are available in the principal's office upon request.

STUDENT DISCIPLINE OUT OF SCHOOL INCIDENTS

The Covington-Douglas Board of Education recognizes that out of school conduct of students attending school within this district, are not normally a concern of the board. However, the board believes that disciplinary action for conduct occurring off school property and not involving a school activity is proper if the conduct has an adverse effect upon the school.

Therefore, it is the policy of this board that any student attending school within this district will be subject to disciplinary action including, but not limited to, suspension from school for any conduct, which in the opinion of the administrators, has an adverse impact on the school.

Such activity includes, but is not limited to the following;

1. Damaging school property, e.g. a school bus;
2. Engaging in an activity which causes physical or emotional harm to other students (on the way to or from school), teachers, or other school personnel;
3. Engaging in an activity which directly impedes discipline at school or the general welfare of school activities.

CORPORAL PUNISHMENT

It is the policy of the Covington-Douglas Board of Education to administer corporal punishment as a means of discipline. Corporal punishment must be administered by the principal or principal's designee.

Corporal punishment may be one of the alternative choices given to students for disciplinary measures. The number of swats must be made known to the student prior to selection when corporal punishment is one of the alternative choices. At no time shall more than three swats be administered.

Parents may request that corporal punishment not be administered to their child. Such request shall be in writing and be placed in the student's folder. Parents shall not be allowed to administer swats as punishment for school discipline on school premises.

The teacher or the administrator or both shall make careful documentation of each occasion. Such documentation will identify the student and set forth the behavior necessitating the punishment; the person who administered the punishment; and the name of the witnesses.

Under no circumstances shall other students or non-certified personnel, with the exception of a parent of the student involved who has requested to be present as a witness, observe the administration of corporal punishment. The student shall be carefully advised of the nature of the rule infraction for which the punishment is being administered. The principal will notify the parent(s) or legal guardian, in writing, that corporal punishment has been administered and the reason for the corporal punishment. The principal shall maintain a file containing a record of all students who have received corporal punishment that year. Reference: 21 O.S. #843 70 O.S. #6-114

THE ABESTOS HAZARD EMERGENCY ACT OF 1986

The Asbestos Hazard Emergency Act of 1986 (AHERA) requires the inspection of all buildings in the school district for asbestos. The district has complied with this act. A management plan documenting these inspections is on file for public review. Upon request, you may view the plan that is located at the superintendent's office and at each campus.

The Covington-Douglas Public School annually notifies all parents, teachers and other employees by posting this notice. Additionally, information regarding any asbestos related activities planned or in progress, will be disseminated by posting a notice, or using handout bulletins, flyers and/or using newspaper public notice statements.

The asbestos identified in our management plan will be checked regularly by a licensed asbestos company and by our staff to scrutinize any changes in the material which could cause a health hazard. We will continue to monitor the asbestos as defined by EPA guidelines. If changes occur, our asbestos coordinator will notify the appropriate people prescribed by law.

COVINGTON-DOUGLAS SCHOOLS DRUG TESTING POLICY

The Covington-Douglas Board of Education in an effort to protect the health and safety of its extra-curricular activities students from illegal and/or performance-enhancing drug use and abuse, thereby setting an example for all other students of the Covington-Douglas Public School District, proposes to adopt the following policy for drug testing of activity students.

STATEMENT OF PURPOSE AND INTENT

Although the Board of Education, administration, and staff desire that every student in the district refrain from using or possessing illegal drugs, district officials realize that their power to restrict the possession or use of illegal and performance-enhancing drugs is limited. Therefore, this policy governs only performance-enhancing and illegal drug use by students participating in extra-curricular activities. The sanctions imposed for violations of this policy will be limitations solely upon limiting the opportunity of any student determined to be in violation of this policy to a student's privilege to participate in extra-curricular activities.

No suspensions from school or academic sanctions will be imposed for violations of this policy. This policy supplements and complements all other policies, rules, and regulations of the Covington-Douglas Public School District regarding possession or use of illegal drugs. Notwithstanding the foregoing, a student may be disciplined, including suspended out of school, if a violation of this policy also results in a violation of the school Districts Student Behavior Policy, handbook or other policy targeted for the use of illegal or student enhancing drugs including alcohol.

Participation in school-sponsored interscholastic extra-curricular activities at the Covington-Douglas Public School District is a privilege. Students who participate in these activities are respected by the student body and are representative of the school district and the

community. Accordingly, students in extra-curricular activities carry a responsibility to themselves, their fellow students, their parents and their school to set the highest possible examples of conduct, sportsmanship, and training, which includes avoiding the use or possession of performance enhancing or illegal drugs.

Illegal and performance-enhancing drug use of any kind is incompatible with the physical, mental, and emotional demands placed upon participants in extra-curricular activities and upon the positive image these students project to other students and to the community on behalf of the school district. For the safety, health and well being of students in extra-curricular activities the Covington-Douglas Public School District has adopted this policy for use by all participants in extra-curricular activities in grades 7-12.

Procedures Each activity student shall be provided with a copy of the "Student Drug Testing Consent Form" which shall be read, signed and dated by the student, parent or custodial guardian and coach/sponsor before such student shall be eligible to practice or participate in any extra-curricular activities. The consent requires the activity student to provide a urine sample: (a) as part of the student's annual physical for athletic competition or for eligibility for participation if a physical is not a requirement of the activity; (b) when the activity student is selected by the random selection basis to provide a urine sample; and (c) at any time when there is reasonable suspicion to test for illegal or performance-enhancing drugs. (If the student initiates the reasonable suspicion upon him/herself, penalties of this policy shall apply, if the reasonable suspicion is initiated by a staff member, teacher, coach, administrator or other reliable source, the penalties of the student handbook policy for "Alcoholic Beverages/Drugs" or "Tobacco" shall apply). No student shall be allowed to practice or participate in any extra-curricular activities or interscholastic competition, unless the student has returned the properly signed "Student Drug Testing Consent Form" and has had or is scheduled to have their initially required urine test.

Each Activity Student shall receive a copy of the Activity Student Drug Testing Policy. The head coach or sponsor shall be responsible for explaining the Policy to all prospective students, and for preparing an educational presentation to acquaint the student with the harmful

consequences of drug and alcohol use and abuse.

All Activity Students will be required to provide a urine sample before the student may participate in an extra-curricular activity or event covered under this policy. A student who moves into the district after the school year begins will have to return the "Student Drug Testing Consent Form" prior to becoming eligible. Students who have moved in and do return the form will be subject to a urine test at the next available opportunity.

Drug use testing for Activity Students will also be chosen on a random selection basis monthly from a list of all Activity Students who are involved in off-season or in-season activities. The Covington-Douglas Public School District will determine a monthly number of student names to be drawn at random to provide a urine sample for drug use, testing for: illegal or performance-enhancing drugs.

In addition to the drug tests required above, any Activity Student may be required at any time to submit to a test for illegal or performance-enhancing drugs, or the metabolites thereof when an administrator, coach, or sponsor has reasonable suspicion of illegal or performance-enhancing drug use by that particular student.

Any drug use test will be administered by or at the direction of a professional laboratory chosen by the Covington-Douglas Public School District. The professional laboratory shall be required to use scientifically validated toxicological testing methods, have detailed written specifications to assure chain of custody of the specimens, and proper laboratory control and scientific testing.

All aspects of the drug use testing program, including the taking of specimens, will be conducted so as to safeguard the personal and privacy rights of the student to the maximum degree possible. The test specimen shall be obtained in a manner designed to minimize intrusiveness of the procedure. In particular, the specimen must be collected in a restroom or other private facility behind a closed stall. The principal/athletic director shall designate a coach, sponsor, or school employee of the same sex as the student to accompany the student to a restroom or other private facility behind a closed stall. The monitor shall not observe the student while the specimen is being produced, but the monitor shall

be present outside the stall to listen for the normal sounds of urination in order to guard against tampered specimens and to insure an accurate chain of custody. The monitor shall verify the normal warmth and appearance of the specimen. If at any time during the testing procedure the monitor has reason to believe or suspect that a student is tampering with the specimen, the monitor may stop the procedure and inform the principal/athletic director who will then determine if a new sample should be obtained. The monitor shall give each student a form on which the student may list any medications legally prescribed for the student he or she has taken in the preceding thirty (30) days. The parent or legal guardian shall be able to confirm the medication list submitted by their child during the twenty-four (24) hours following any drug test. The medication list shall be submitted to the lab in a sealed and confidential envelope and shall not be viewed by district employees.

An initial positive test result will be subject to confirmation by a second and different test of the same specimen. The second test will use the gas chromatography/mass spectrometry technique. A specimen shall not be reported positive unless the second test utilizing the gas chromatography/mass spectrometry procedure is positive for the presence of an illegal drug or the metabolites thereof. The unused portion of a specimen that tested positive shall be preserved by the laboratory for a period of six (6) months or the end of the school year, whichever is shorter. Student records will be retained until the end of the school year.

Confidentiality The laboratory will notify the principal/athletic director or designee of any positive test. To keep the positive test results confidential, the principal will only notify the student and the parent or custodial guardian of the student of the results for the first offense. For subsequent offences the athletic director and/or coach/sponsor will also be notified. The principal will schedule a conference with the student and parent or guardian and explain the student's opportunity to submit additional information to the principal or to the lab. The Covington-Douglas Public School District will rely on the opinion of the laboratory which performed the test in determining whether the positive test result was produced by something other than consumption of an illegal or performance-enhancing drug.

Test results will be kept in files separate from the
28

student's other educational records, shall be disclosed only to those school personnel who have a need to know, and will not be turned over to any law enforcement authorities.

Appeal An Activity Student who has been determined by the principal/athletic director to be in violation of this policy shall have the right to appeal the decision to the Superintendent or his/her designee(s). Such request for a review must be submitted to the Superintendent in writing within two (2) school days of notice of the positive test. A student requesting a review will remain eligible to participate in any extra-curricular activities until the review is completed. The Superintendent or his/her designee(s) shall then determine whether the original finding was justified. No further review of the Superintendent's decision will be provided and his/her decision shall be conclusive in all respects. Any necessary interpretation or application of this policy shall be in the sole and exclusive judgment and discretion of the Superintendent which shall be final and non-appealable. The Superintendent shall be entitled to ample time in making a determination to assure the integrity of the decision. It is recommended that the decision be returned 24 hours after receipt of the appeal.

Consequences Any Activity Student who tests positive in a drug test under this policy shall be subject to the following restrictions:

A. *For the First Offense:*

The parent/guardian, principal, and student will meet. In order to continue participation in the activity the student and parent/guardian must, within five (5) days of the joint meeting, show proof that the student has received drug counseling from a qualified drug treatment program or counseling entity at the student's expense. Additionally, the student must voluntarily submit to a second drug test to be administered within two (2) weeks or at the next available opportunity in accordance with the testing provisions of this policy.

If parent/guardian and student agree to these provisions, the student will continue to participate in the activity. Should the parent/student not agree to these provisions, or provide documentation of the drug counseling within (5) days, the

consequences listed in this policy for the second offense will be imposed.

B. *For the Second Offense:*

The parent/guardian, principal, student, and/or Coach/athletic director/sponsor will meet.

Suspension from participation in all activities covered under this policy for (15) school days and all interim non-school days , and successful completion of four (4) hours of substance abuse education/counseling at the student's expense. The suspension shall be extended until proof of successful completion of 4 hours of substance abuse education/counseling has been presented to the principal. The student may not participate in any meetings, practices, scrimmages or competitions during this period. The student will be randomly tested monthly for the remainder of the school year. The time and date will be unknown to the student and determined by the principal/athletic director or designee.

These restrictions and requirements shall begin immediately, consecutive in nature, unless a review appeal is filed following receipt of a positive test. Provided, however, a student who on his or her own volition informs (self-refers) the athletic director, principal, or coach/sponsor of usage before being notified to submit to a drug use test will be allowed to remain active in all activities covered under this policy. Such student will however, be considered to have committed his/her first offense under the policy, and will be required to re-test as would a student who has tested positive.

ACCEPTABLE USE POLICY

Covington-Douglas Public School is pleased to make Internet access available to students, employees, and patrons of the district. We believe that Internet offers vast, diverse, and unique resources to teachers, students, and the public

The internet serves as an electronic highway connecting thousands of computers all over the world and millions of individual subscribers. Students, employees, and patrons who utilize the Internet will have access to:

1. electronic mail communication with people all over the world
2. information and news
3. public domain and shareware of all types
4. discussion groups on a plethora of topics]
5. access to an abundance of research information, and;
6. undesirable and in some cases possibly illegal information

With access to computers and people all over the world also comes the availability of material(s) that may not be considered to be of educational value in the content of the school setting. The district has taken precautions to provide appropriate control over undesirable information by utilizing software that provide an ability to limit and restrict access to controversial material(s). Access to minors including questionable or harmful material will be restricted. The safety and security when using electronic mail, chat rooms, and other forms of direct electronic communications are also strictly limited and monitored. However, on a global network it is impossible to control all materials) and an industrious user may discover controversial information. We firmly believe that the valuable information and interaction available on the worldwide network far outweighs the possibility that users may procure material that is not consistent with our education goals.

The smooth operation of the network relies upon the proper conduct of the users who must adhere to strict guidelines. These guidelines are provided so that patrons, students and employees of the Covington-Douglas Public School are aware of their responsibilities as users of the Internet access provided by the district. In general, this requires efficient, ethical, and legal utilization of the network resources. If an individual violates any of these provisions, his or her access will be terminated and future access could possibly be denied. In some cases, the district may pursue criminal prosecution and/or termination proceedings if such violations involve employees of the district.
