

2020-2021 Covington-Douglas

Afternoon Dismissal Procedures/Map

- We ask that you as the parent/guardian take note of the **dismissal map on the following page**. Due to construction on our campus, the normal route for afternoon dismissal of cars and buses will need to be altered.
- All elementary students will be exiting the elementary building's South facing entrance, **indicated by the white star**.
- We will have procedures in place that will continue to allow the loading of students into cars at the designated loading zone. But, the buses will be parked on the drive between construction fencing and new gym.
- Students riding buses will be loading in the designated bus loading zone. Please, abide by the marked lanes for car traffic.
- Please, follow the arrows after picking up your student and note the one-way exiting of the west campus drive.
- Vehicles waiting to pick up students will still need to wait on the road south of the new gym. Instead of circling out, as in years past, we ask that cars follow designated path in one-way lane past new gym.
- **** As always, we ask that patrons be mindful of pedestrian traffic around all buildings and roads upon school dismissal.**

Covington-Douglas Car Pick-Up and Drop-Off

2020-2021 School Year

- * Parents, please, observe the one way arrows for safe drop-off and dismissal.
- * Due to construction areas, cars will need to turn South onto Oklahoma Street west of the new gym. Buses will load in designated area, then will turn North onto Oklahoma Street.
